Course Description:
If you're a cost center manager, come learn the fundamentals of using the Colleague Financials (CF) module. When you leave this training, you will understand the GL account number structure, be familiar with custom and budget reports, and be able to look up account balance and encumbrance information. You will also learn essential information regarding such topics as budget transfers and petty cash distributions. (*Note: This training is required before CF access will be granted in the COLLIVE account.)

Audience:
- Cost center managers requiring access to the Colleague Financials (CF) module
- Admin assistants supporting cost center managers

Prerequisites:
- Required –
  - IMT-1005 Introduction to Colleague
